

## BASETEK LTD QUALITY POLICY

As one of the UK's leading contract purchasing companies, we work to a very simple mission statement: to provide a reliable sourcing, purchasing and logistics service that guarantees price, competitiveness, quality and timely delivery to any location worldwide. Through our 17 years of trading history, we have built up knowledge and understanding of our customers' requirements and we are committed in the maintenance of our organisational knowledge to ensure the consistent provision of our products and services for business continuity purposes.

Quality objectives have been set to support this policy and the organisations changing context. These will be reviewed at the quarterly management meeting in view of continual improvement.

We are committed to enhancing customer satisfaction through the effective application of our Quality Management System and with it a companywide acknowledgement of the responsibilities supporting the sourcing, purchasing and delivery of our service across the globe.

This quality policy, and in fact the entire quality management documents are available to all staff through the Basetek Helpdesk. The quality policy itself is also available on request for external parties including suppliers, customers and regulatory bodies.
