Document Title : Quality Policy

QUALITY POLICY STATEMENT

Moughton Engineering Ltd. has developed and implemented a Quality Management System to ensure that undertakings requested from the Company are to all requirements set out by the Customer and all risks to the Company have been identified and mitigated against.

This policy and supporting procedures have been developed to satisfy the requirements of BS EN ISO 9001. The Company endeavours to not only maintain quality standards but to ensure that risks to the Company are known and covered, with all personnel involved in the pro-active management of all quality aspects within the Company.

All Personnel understand the significant risk and opportunity that Quality represents. Also, how continual improvement through the internal processes can improve the Company position in an ever-changing marketplace. This being recognised through monitoring customer perception.

To ensure effectiveness of the Quality System, internal quality audits, and where required, training is performed. The overall system is monitored through annual Management Review meetings between Senior Management and relevant employees from across the Company.

The implementation and development of the Quality System within the Company has all required Senior Management and Employee commitment and support. All Quality Control related activities are carried out by suitably experienced/trained employees.

The achievement of the Company's Quality Policy, along with the identification off all quality aspects and impacts, objectives and targets, are the responsibility of all employees. All employees will remain individually answerable for the quality of their work.

All employees have been given copies of this policy statement and the significance of quality management explained. The Senior Management will ensure that relevant quality procedures and work instructions are communicated to, understood and adhered to by all employees at commencement of employment and throughout their employment.

The Quality Manager, as part of the Senior Management team has been employed to maintain the overall authority and responsibility for the implementation and maintenance of the Quality Management Systems as part of, and behalf of the fellow Senior Management Team.
