ENVIRONMENTAL POLICY

Anglia Formwork Ltd. recognises that care for the environment is a primary responsibility and is committed to achieve continuous improvement of our environmental performance. Systems have been developed in accordance with the International Standards for Environmental Management ISO 14001, and third party accredited certification is being sought.

We aim to:

- Improve standards of environmental management at all offices and on all projects in conjunction with main contractors and clients.
- Take steps to minimise waste, prevent pollution, and pursue good practice in resource management.
- Set targets and use plans to monitor the achievement of defined environmental objectives
- Develop procedures detailing environmental practices to take account of developing legislation, regulations, guidance on best practice and any other criteria we formally adopt
- Ensure that environmental considerations form part of each employees responsibilities.
- Provide appropriate environmental communication, education and training
- Comply with all statutory and contractual requirements
- Agree to work under our clients Environmental System
