

	Environmental & Sustainability Policy		
	POL042	4	27.07.20
	Last reviewed		Next Review
28.07.21		Jul-22	

Our aim is to reduce the impact of our business operations on the environment, promote sustainability and environmental awareness at all levels of the business by:

- Comply with all relevant regulatory requirements
- Commit to sourcing local produce where possible
- Reduction in carbon emissions having maximised roof space with the installation of solar panels, promote low-energy use, use of light sensors and use of low carbon technologies in equipment
- Minimising waste by reduction, reuse and recycling methods
- Minimise plastic use by sensible purchasing policies and internal procedures
- Monitoring water consumption and reduce leakage and eliminate unnecessary and excessive use
- Using latest technologies for cleaner fuel efficient vehicles
- Adopt a procurement programme which takes into account the environmental impact of products and services
- Ensure our staff are aware of the environmental impacts of their work activities and encourage them through regular awareness and training to minimise those impacts
- Provide appropriate resources to meet the commitments of this policy
