Environmental Policy

Midas is an independently owned and operated power solutions provider, based near Ipswich in Suffolk. We aim to provide a total power solution for businesses requiring emergency power, stand-by power solutions or simply require temporary power in areas not currently served with electricity.

We take a detailed consultative approach to ensure our clients get the right power solution for their needs, without over-specifying equipment or under-estimating requirements. Where necessary, we conduct a site audit to ensure a safe and accessible operating environment for our clients and the machinery itself.

This environmental policy will cover the entire operations at Unit 1, Uplandside, Manor Road, Clopton, Ipswich IP13 6SH

Through the effective use of our environmental management system, Midas will focus on minimising the impacts of our operations in these areas:

- Energy consumption
- Travel and transport
- Use of resources
- Use of water
- Waste

We commit to continuous improvement to prevent pollution and actively encourage good environmental behaviour at a corporate and individual level by:

- Monitoring our consumption of energy, water and materials and setting annual targets for reduction.
- Minimising waste by reducing consumption and developing effective waste management and recycling procedures.
- Ensuring that, where possible, we switch to sources that have a less harmful impact on the environment.
- Encouraging environmentally responsible personal and business travel, ensuring all Midas employees are aware of our aims and expectations.
- Promoting environmental awareness amongst our employees, suppliers, contractors and partners by implementation of operational procedures.
- Reducing, where possible, the consumption of fossil fuels and adopting long-term strategies for energy efficiency into planning and development.
- Ensuring effective and expedient incident control, investigating and reporting.
- Complying with all legal and other requirements. We make it our business to know when new UK or EU legislation comes into force.

Environmental commitments and target setting

Midas will annually review environmental objectives, setting strategies to ensure the minimisation of our environmental impact. Through effective monitoring, regular review, and resource dedication, Midas will ensure impact mitigation is consistent and aligned with our environmental commitments.

Responsibility for the Policy

Management and supervisory staff have responsibilities for the implementation of the policy and must ensure that environmental issues are given adequate consideration in the planning and day-to-day supervision of all work.

All employees and subcontractors are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own works, so far as reasonably practicable, are carried out without risk to themselves, others or the environment. This includes co-operating with management on any environment related matter.

The Directors have an overall responsibility for all environmental matters.

Implementation of the Policy

The company directors are responsible for implementing the policy within the company.

Midas will take all practical steps to ensure that potential hazards and risks to the environment are identified and that suitable and effective preventative and control measures are implemented. All employees will be provided with the necessary resources, equipment, information, instruction, and training to fulfil the requirements of this policy.

Monitoring of environmental performance of suppliers.

We encourage our suppliers to provide similar environmental policies in an assurance that they assume similar responsibilities to our own. Our quality control procedures include regular monitoring of our suppliers and will address environmental issues should they arise. It is the responsibility of our employees to assess the quality and service of products entering the building both for hire and sale.

Review and monitoring of the policy.

The operation of this policy and the associated procedures will be monitored and reviewed on a regular basis to ensure that they remain constant and applicable to Midas Productions UK Ltd activities.
